📁 PROFESSIONAL EXPERIENCE

08/2021 – present

Android Development Trainer, Build My Project 📁

For more than a period of 8 months, while being still in college, I worked at BMP. BMP Courses is a Thane-based company specializing in training, development, and implementation of tech projects.

- My work primarily included training school and college students.
- Creating real-time Android applications with students.
- Hosted multiple Android App Development workshops with students of all age groups.

10/2021 – 12/2021

Penetration Testing Intern, Virtually Testing Foundation 📁

During these 3 months of tenure, while learning the ethical hacking concepts I cleared this 10-week internship successfully.

- My responsibility was to test the web application lab and find different types of vulnerabilities using multiple payloads and creating reports.

08/2020 – 11/2020

Android App Developer Intern, Youth Empowerment Foundation

YEF is Delhi based NGO, working for the cause of educating the underprivileged children of society. Working with a team of developers I created my first professional app.

- Primarily I worked on designing app layouts and managing firebase configurations.
- Learned to work with multiple APIs used for developing the app.

PROJECTS

2020 – 2021

ARay, AR Glasses Shopping App

Being the trending field AR is interesting to work with, so here is a shopping app based on the concept of AR.

- This interactive app is built on top of Java, XML, and Android Studio.
- Users can try on the glasses before buying them.
- Payment is secured with payment API.

2021

Countrywise covid effect visualizations, PowerBI visualizations

This powerBi file creates powerful visualizations for understanding the countrywide effect of covid in terms of wealth, HDI, GDP, and population.

2020

Furniture Shop Management System, Furniture Shopping Website

Interactive web application for retail furniture shop owners.

- Built on top of C#, .NET MVC framework with Microsoft SQL Server as database.
- This system is available for the User and Admin user.

2021

QuizSite, Web App for Quiz Competitions

QuizSite is a JavaScript-based project for handling quiz competitions.

QuizSite provides functionalities like:

- Easy Question assigning.
- Scorecard.
- Easy but attractive GUI

2020

W3CSS Clone

This is a clone web tutorial of the W3CSS framework from the W3CSS website.

- Multipage website for implementing all the components included in the W3CSS framework.
- The website has interactive features according to the component which is applied.

EXPERTISE

- Android App Development
- Web Development
- Data Research
- Canva graphic designs
- Debugging

CERTIFICATES

- IBM Cybersecurity fundamentals specialization 
- Applied Machine Learning
